1. Introduction
2. High level data
3. Exception reports (with regard to working hours)
4. Work schedule reviews
5. Fines
6. Issues arising and actions taken to resolve issues
7. Conclusion and Recommendations
8. Appendix 1 – Exception Reports by Region
9. Appendix 2 – Table of Exception Reports by Host organisation

1. Introduction

Following the implementation of the Terms and Conditions of Service for NHS Doctors and Dentists in training (England) 2016 the Guardian of safe working is required to ensure that issues of compliance of safe working hours are addressed by the doctor, employer and host organisation as appropriate and provide assurance to the Board of the employing organisation that doctors' working hours are safe.

This report covers the period of April 2022 – June 2022.

2. High level data

Total number of host organisations	105	
Total number of host organisations returned exception report data	Number of organisations	% return rate
	56	53%

The table below shows the number of trainees split by region on the 2016 contract:

Region	Total number of Doctors employed under the 2016 Terms & Conditions of Service	Total number of Doctors employed under the 2016 Terms & Conditions of Service based within acute host organisations
North West	6168	4945
West Midlands	1715	674
East Midlands	1218	446
East of England	1429	551
LaSE	63	28
Thames Valley	539	230
TOTAL	11,132	6874

The above figures do not include Trainees currently OOP

3. Work schedule reviews

The non-elective service rota and work schedule (which is a pattern of work during elective duties) is a document distributed to trainees before they commence their placement with the host Trust. It includes generic information relating to the placement, such as learning opportunities, the rota template and pay details. The work schedule is adjusted locally by clinical/educational supervisors to suit the individual training needs of the trainee. If sufficient evidence from ERs suggests a trainee's work schedule is considered too onerous or likely to significantly affect training then a review is recommended so as to effect a change more suitable to the training needs of the trainee, either as an individual or in the case of the department as a whole a rota change.

There were 9 work schedule reviews within Manchester University Hospital between the periods of April 2022 – June 2022.

4. Exception reports (with regard to working hours)

Exception reporting is the mechanism used by trainees subject to the Terms and Conditions of Service for NHS Doctors and Dentists in training (England) 2016 to notify the trust when their day-to-day work varies significantly, or regularly from their agreed work schedule.

Of those host organisations who have returned exception report data, Appendix 1 sets out the exception reports made during December 2021 –March 2022. This includes the number of exception reports that have been raised and closed, what outcome was given and how many are outstanding/ on-going.

5. Fines

There was 2 fines levied within Greater Manchester Mental Health FT and Alder Hey Children's Hospital within the period of April 2022 – June 2022.

6. Issues arising and actions taken to resolve issues

7. Conclusion and Recommendations

The GOSW is assured with the overall safety of working hours across the host organisations for trainees under the 2016 Terms and &Conditions based on evidence from the exception reports submitted thus far. Concern for the safety of patients and wellbeing of their doctor providers is paramount and departments should be mindful of the need to control the hours limits set for these individuals despite the need to apply additional work as part of the post pandemic recovery. The GOSW would ask the Board to note this report and to consider the assurances provided thus far.
